11. Animal Gospel by Andrew Linzey &mdash; ISBN: 0-664-22193-9

In this book Andrew Linzey provides a new Christian credo for animals. Our treatment of animals is a gospel issue, he contends, because those individuals and institutions that could have become the voice of God's most vulnerable creatures have instead justified cruelty and oppression. Linzey offers an inspiring personal account of the gospel truths that have sustained his commitment to the cause of animals for more than twenty-five years. In doing so he makes a strong and moving case for a radically reformed faith, one that allows the gospel of the crucified Christ to interpret the world of innocent suffering.

12. Animal Rites by Andrew Linzey &mdash; ISBN: 0-8298-1451-5

Christians believe that the Logos is the source of all life, yet Christian worship remains largely and unashamedly humanocentric. This new book provides ten new liturgies that are animal-friendly and animal-inclusive. They include services of celebration for animal companionship, services for animal welfare, healing liturgies, new eucharistic prayers "for the whole creation, " and animal burial services. Underlying all these new forms is a serious theological purpose: to draw us deeper into the mystery of God's work in creation and to affirm other sentient beings as co-creatures with us. The book is ideal for parishes that conduct annual blessings of animals, for animal rights activists, and for families with beloved pets.

13. Animal Theology by Andrew Linzey &mdash; ISBN: 0-252-06467-4

Animal Theology uses scripture and a personal view of how Jesus may have lived and how He and those of the more Godly Jewish tribes treated animals. Dr Linzey writes with a compassion for animals few truly understand. Dr. Linzey looks at the issue of eating or not eating meat as well as other issues concerning the purpose of animals from both the Word of God and from the viewpoint of an all-loving God, a God that as Scripture states, truly loves all He has created.

14. Animals on the Agenda by Andrew Linzey & Dorothy Yamamoto &mdash; ISBN: 0-252-06761-4

This encyclopedic volume is the most comprehensive collection of original studies on animals and theology ever published. Linzey points out it cannot be right for theological practitioners to carry on their business as though the world of animals were invisible. Mainstream Christianity still propagates a range of ideas about animals that are hugely detrimental to their status and welfare. This important volume argues that it is time for change.
